bennoc fed summary 040914 (1).docx

Mark, Bob,

During your review of your OEPA coal permits, please include consideration of some of the issues you will see in attached summary.

R5 has been asking for several additions to the Bennoc permit that would apply to others, one example is in Adaptive management plans, need for addl triggers, not just ICI and IBI, see Eric's notes

We can cover some of these issues and the need for consistent comments to OEPA in our next internal meeting April 22 (Earth Day)

Janet Pellegrini, Environmental Scientist

As promised, here are the notes from our conference call. Let me know if anything looks

inaccurate.
